## BLACK PUMAS

In just a couple of years' time, Eric Burton and Adrian Quesada have turned their unplanned meeting into a Grammy-nominated act with songs that have racked up millions of streams and won overwhelming critical praise and multiple sold-out tours across North America and Europe. Their album was nominated for Album of the Year at the 2021 Grammy Awards and has won acclaim from Rolling Stone, who praised "the tireless, charismatic energy of singer Eric Burton." Their anthemic single "Colors" was nominated for Record of the Year at the 2021 Grammys, and has been streamed over 176 million times across all platforms.
